

USING SEEK TO CONNECT WITH NATURE

A guide for learning with Seek, an app by iNaturalist.
Designed for kids (and kids at heart) to learn about nature around us.

Look around you!

What plants, bugs, amphibians, or animals are in your backyard?

Step 1: Search for Seek in your app store

Look for the Seek logo

Step 2: Open the app.

Click the green camera icon

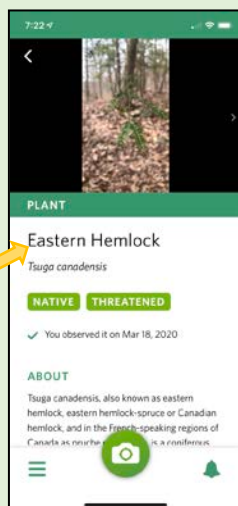

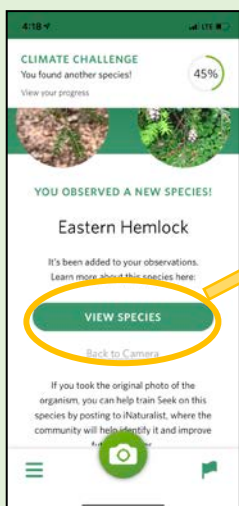

Step 3: Point your camera at something

Try tilting your device or changing how close you are to until you get to GENUS or SPECIES

Then, tap the green camera button to learn more!

Step 4: Learn more about what you identified!

What did you identify?

What is the common name?

What is the scientific name?

Is it native or introduced?

What are some fun facts?

Where can it be found?

When do you usually see it?
